Notepads and Flip Charts

Refill and Drawing Pads

Exercise, Graph and Maths Papers

Recycled Notepads

Scrap and Cuttings Books

Sketch Books and Pads

All prices quoted do not include V.A.T.

Step by step guide to ordering exercise books

- Choose the size of book required 8x6½, 9x7, A4 etc.
- Choose the quantity of pages required, 32p, 48p, 64p, 80p, 120p etc. Please remember that a single leaf in the book constitutes 2 pages.
- Choose the ruling width or type that you require, 6mm, 8mm, 12mm, 15mm wide lines or plain unruled.
- Decide if you require a margin on each page or not, such as 6mm ruled and margin, 8mm ruled and margin etc.
- Decide if you require squares instead of lines, such as 5mm, 7mm, 10mm squares etc. Squares are often used for Maths and Science work.
- Finally choose the colour of your cover, coloured covers can be used to identify subjects or classes. There is a handy Colour Chart and Ruling Guide at the back of this brochure.

Made in the EU to BS4448 standard

All our Exercise Books and Papers are made in the EU from EU manufactured materials.

Our range conforms with British Standard BS4448 which is specified for the manufacture of all Exercise Books and Papers to be used in the Educational Sector.

Exercise Books and Exercise Papers made outside the EU rarely conform with this British Standard BS4448.

ALL OF OUR PRODUCTS ARE COMPLIANT.

Nordic Swan Label

The Nordic Swan label is widely recognised throughout Europe. Products accredited with this standard are printed with water based inks with optical ecolabelling. There is consideration of the environmental impact of these products from the raw material through to waste.

Forest Stewardship Council

An Internationally recognised organisation dedicated to promoting responsible global forest management to the highest environmental, social and economic standards. Harvested trees are replanted to ensure future generations will be able to enjoy the benefits.

Programme for the Endorsement of Forest Certification

Providing an assurance mechanism to purchasers of wood and paper products creating a positive contribution towards mitigating the effects of climate change. The organisation motivates and enables people to sustainably manage their forests and works to provide a market for those products.

Save the Rhino International

Actively connects conservation and communities. Sales from Rhino branded stationery directly support the work of the organisation. Save the Rhino works throughout Africa and Asia to conserve populations of rhino with benefits which reach beyond the species to other endangered animals and local communities.

SUPERIOR QUALITY ULTIMATE RELIABILITY GREAT PRICE

Image Laser Cartridges provide substantial cost savings compared to the originals – without any detriment to print quality or capacity.

Image cartridges provide at least the same page yield, the same performance and the same quality as the originals but cost significantly less.

THE **GO TO** GUYS
FOR OFFICE

Exercise Books Overprinting Service

Personalise your school's exercise books with our overprinting service.

There's no cost to digitise the artwork from the logo you supply, and any text of your choice. The artwork will then be retained for any future overprinting orders you may place.

You can choose any font you like, simply email the font file to us along with your school logo.

NEW - Personalisation is now available to include Department, Class, Subject, Teacher Name and Pupil Name details or any message required, in addition to your school crest or logo.

The printing cost is just £10 per 100 books (plus the cost of the exercise books themselves), that's just 10 pence per book!. All printing is done in one colour, black with a choice of typefaces for your school name.

Delivery is normally 2 to 3 weeks.

Contact us for details.

Save The Rhino International

Save the Rhino works to conserve viable populations of critically endangered rhinos in Africa and Asia. We recognise that the future of wildlife is inextricably

linked to the communities that share its habitat. By funding field projects and through education, our goal is to deliver material, long-lasting and widespread benefits to rhinos and other endangered species, ecosystems and to the people living in these areas.

Aims

- To increase the number of rhinos in genetically viable populations in the wild.
- To enhance the integrity of ecosystems.
- To ensure that local communities benefit from conservation activities.

Primary objectives

- To provide financial and in-kind support for in situ projects focused on all five of the rhinoceros species.
- To encourage and enable the sharing of information, experience and skills between rhino projects.
- To measure and improve the effectiveness of our grant-making activities.

Our grant-making activities

The funds we raise are used to support projects that address rhino conservation through a number of measures:

- Community conservation programmes that develop sustainable methods by which local communities can creatively manage natural resources.
- Environmental education programmes that teach children and adults about the importance of preserving natural resources and address human-wildlife conflict issues.
- Anti-poaching and monitoring patrols, which detect and deter poachers and gather information about rhino ranges and numbers.
- Translocations, so that rhinos from established populations can be reintroduced to former habitats.

- Research into the threats to rhino survival and alternatives to the use of rhino horn.
- Veterinary work, such as the implanting of transmitters into horns, or removal of snares.

Our approach

- We employ a pragmatic approach focused on viable populations, and are not sentiment-driven.
- We support the sustainable use of natural resources for the mutual benefit of wildlife, habitat and local communities.
- We do not create or run our own projects in the field; rather, we find rhino conservation projects that we think are doing a good job, and then fund them.
- We prefer to work with projects on a long-term basis, rather than making one-off or ad hoc grants.
- SRI is a fundraising organisation, not a campaigning one: we do not get involved in political lobbying or petitioning.
- We believe in the value of partnership working with other in situ and ex situ NGOs and conservation organisations.

Buying Rhino branded stationery saves Rhinos

When you purchase Rhino branded stationery, you are directly supporting the work of Save The Rhino International.

Substantial financial support is given to SRI through the sale of ethically produced educational and office stationery products from the Rhino range.

Rhino stationery's strong brand image serves as an extremely effective tool in raising the awareness of the work done by SRI.

For more information about the work of Save The Rhino International visit the official website at:
